

BE-AWARE I+II Projects

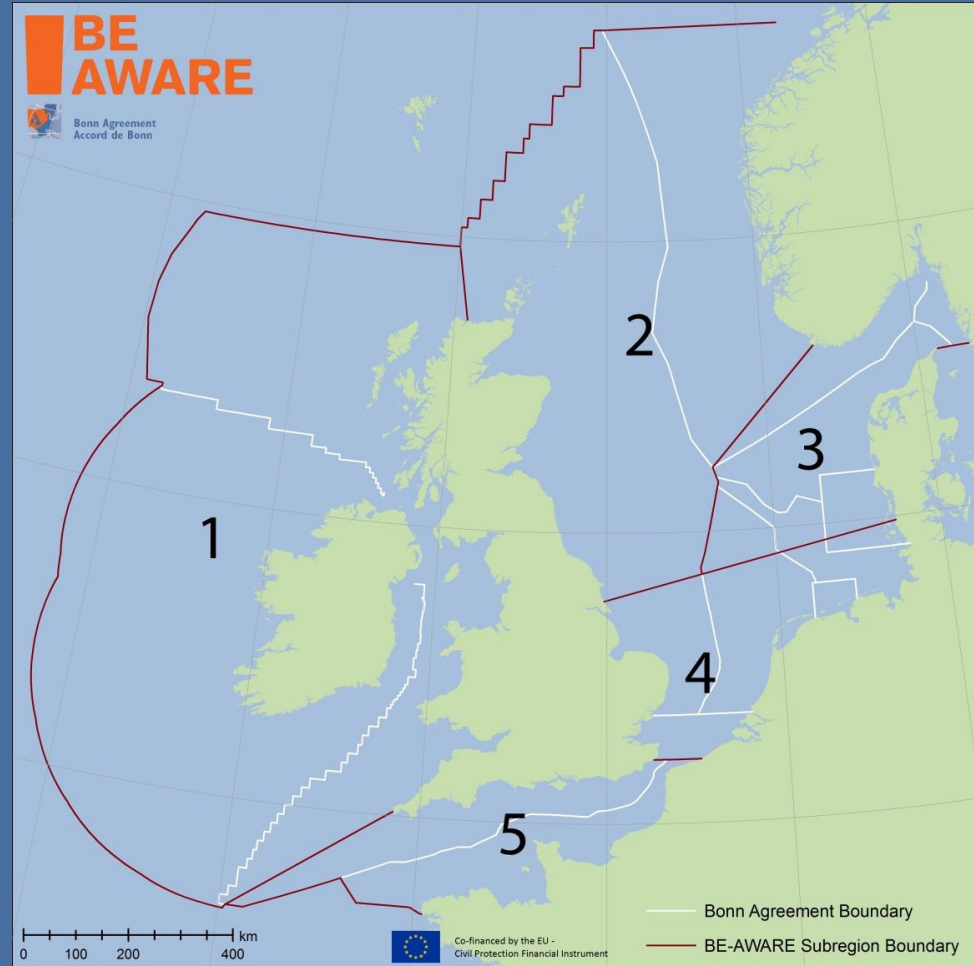

Assessing the Most Effective Future Oil
Pollution Risk Reduction and Response
Measures

Co-financed by the EU – Civil
Protection Financial Instrument

BE-AWARE Aims

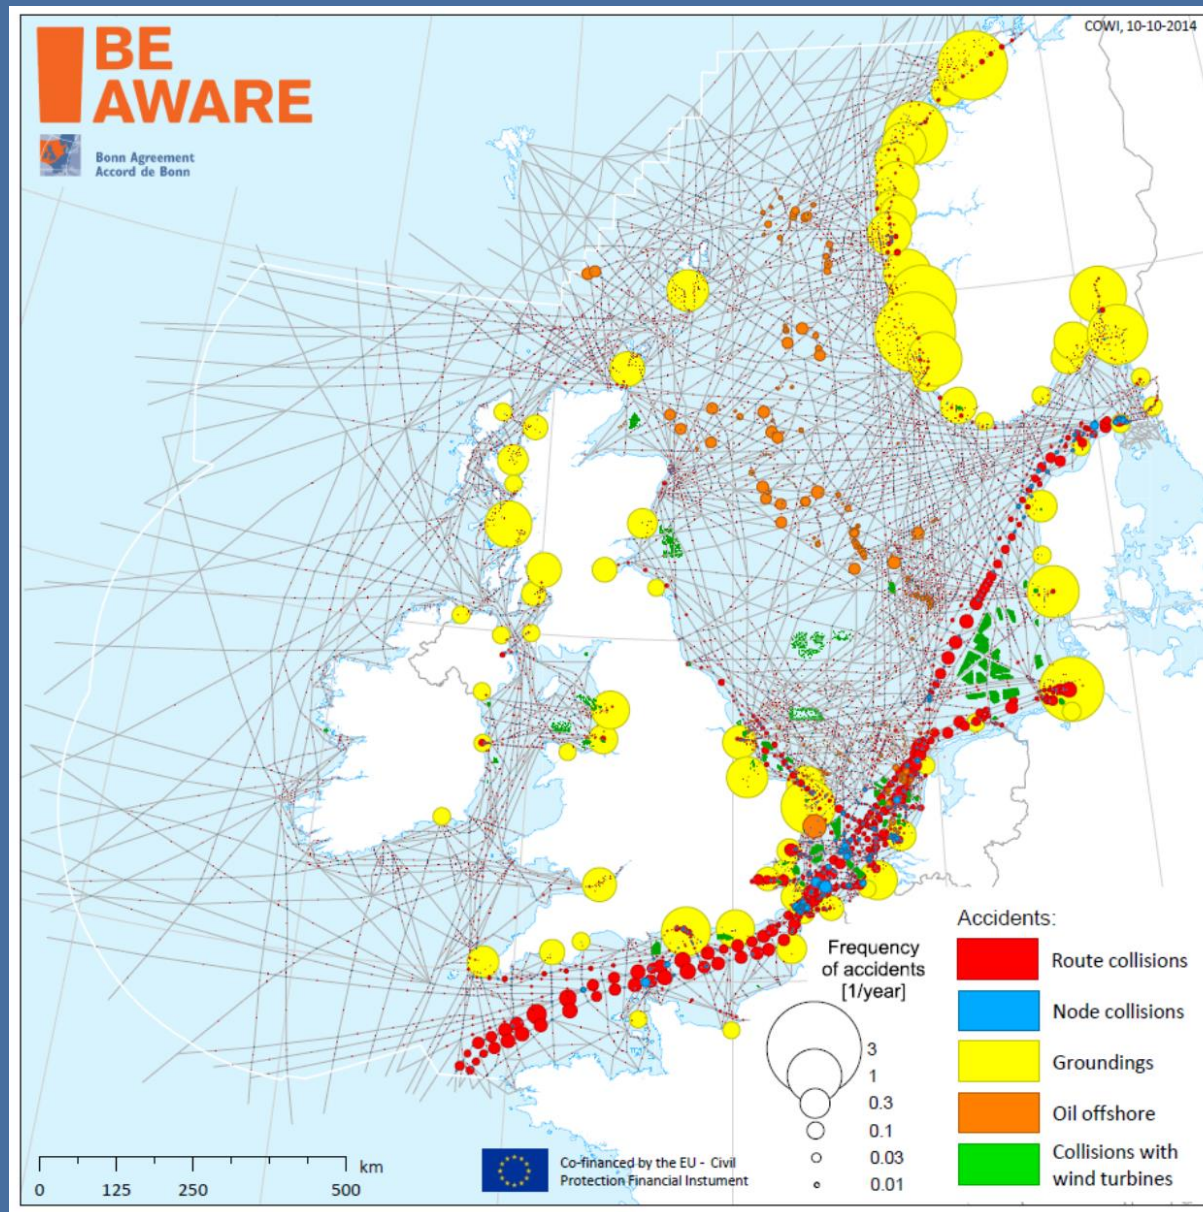

The aim of BE-AWARE is to clearly understand the (sub) regional risk of marine pollution and to identify the most effective future risk reduction and response measures for oil pollution in each sub region.

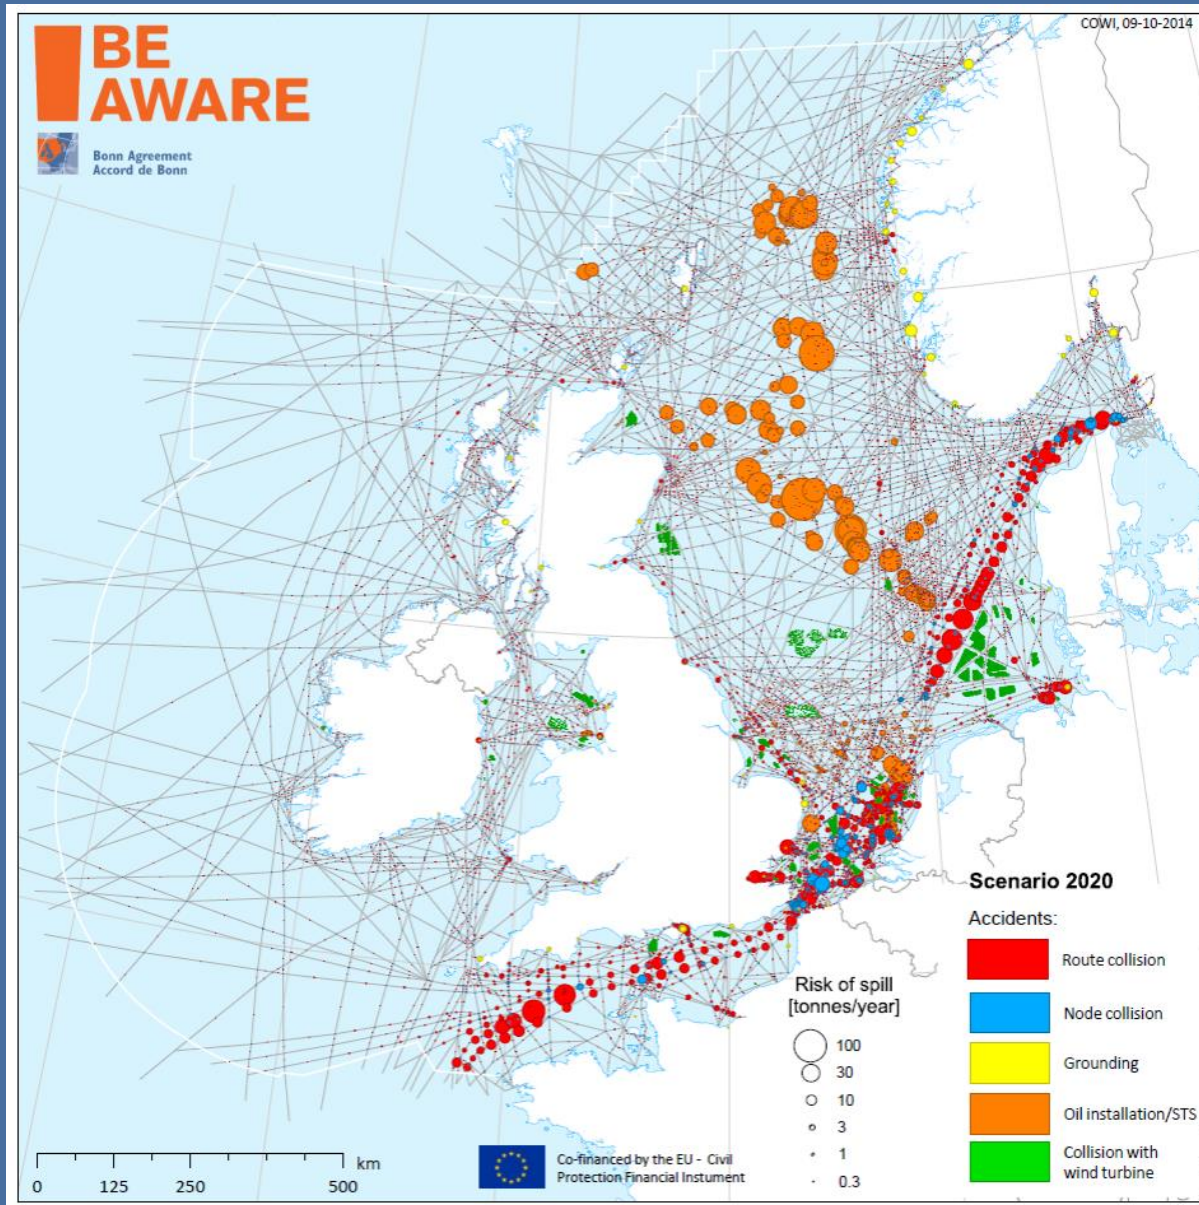

BE-AWARE: A project in two halves

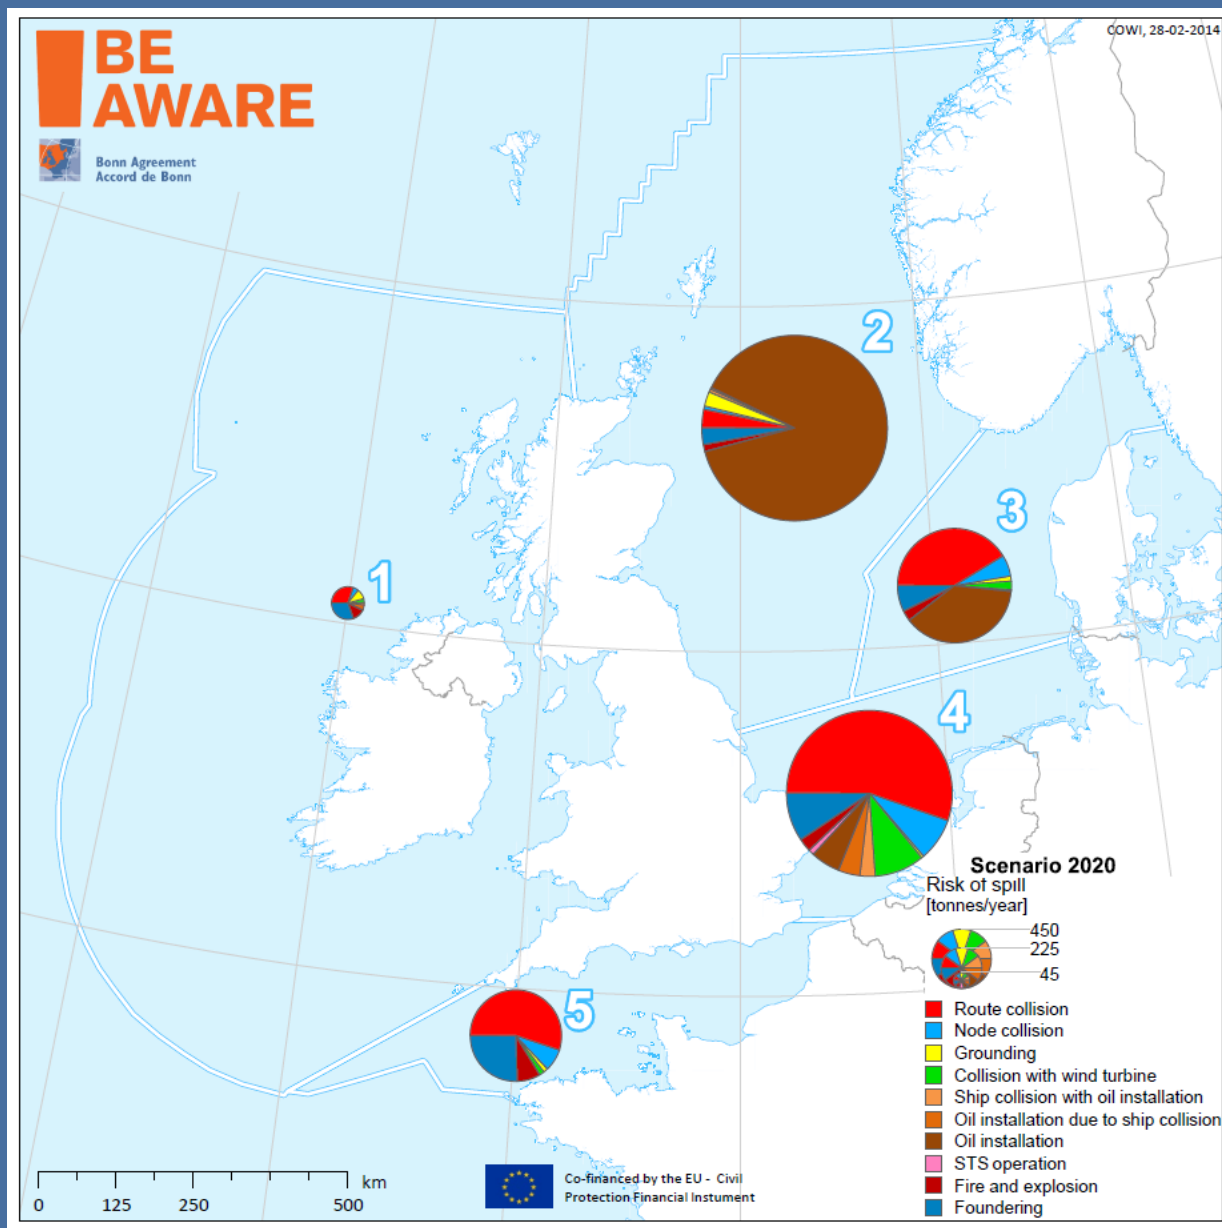

2020 Results: Frequency of Accidents

2020 Results: Risk of Spill, Tonnes per year

2020 Results: by Region

Qualitative analysis of the likelihood of HNS spills

Data Collection and Analysis

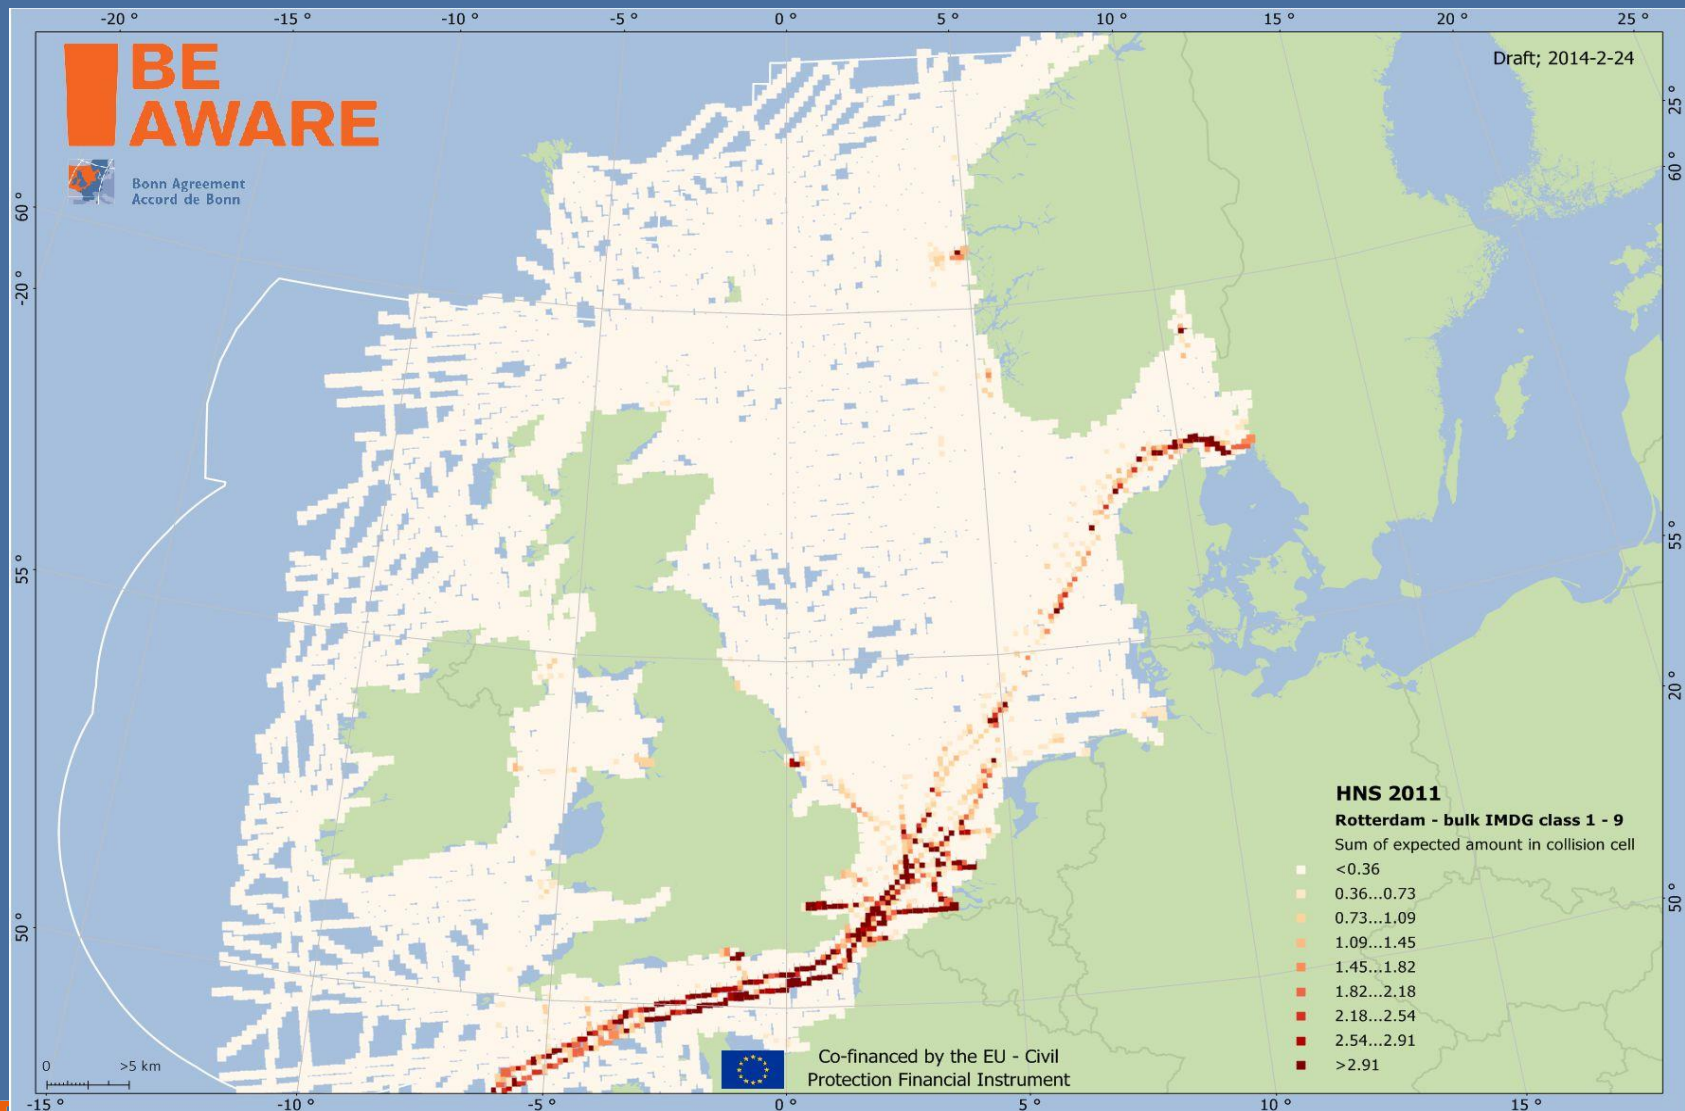

- Rotterdam (Bulk)
- Antwerp (Bulk & Packed goods)

Qualitative analysis of the likelihood of HNS spills

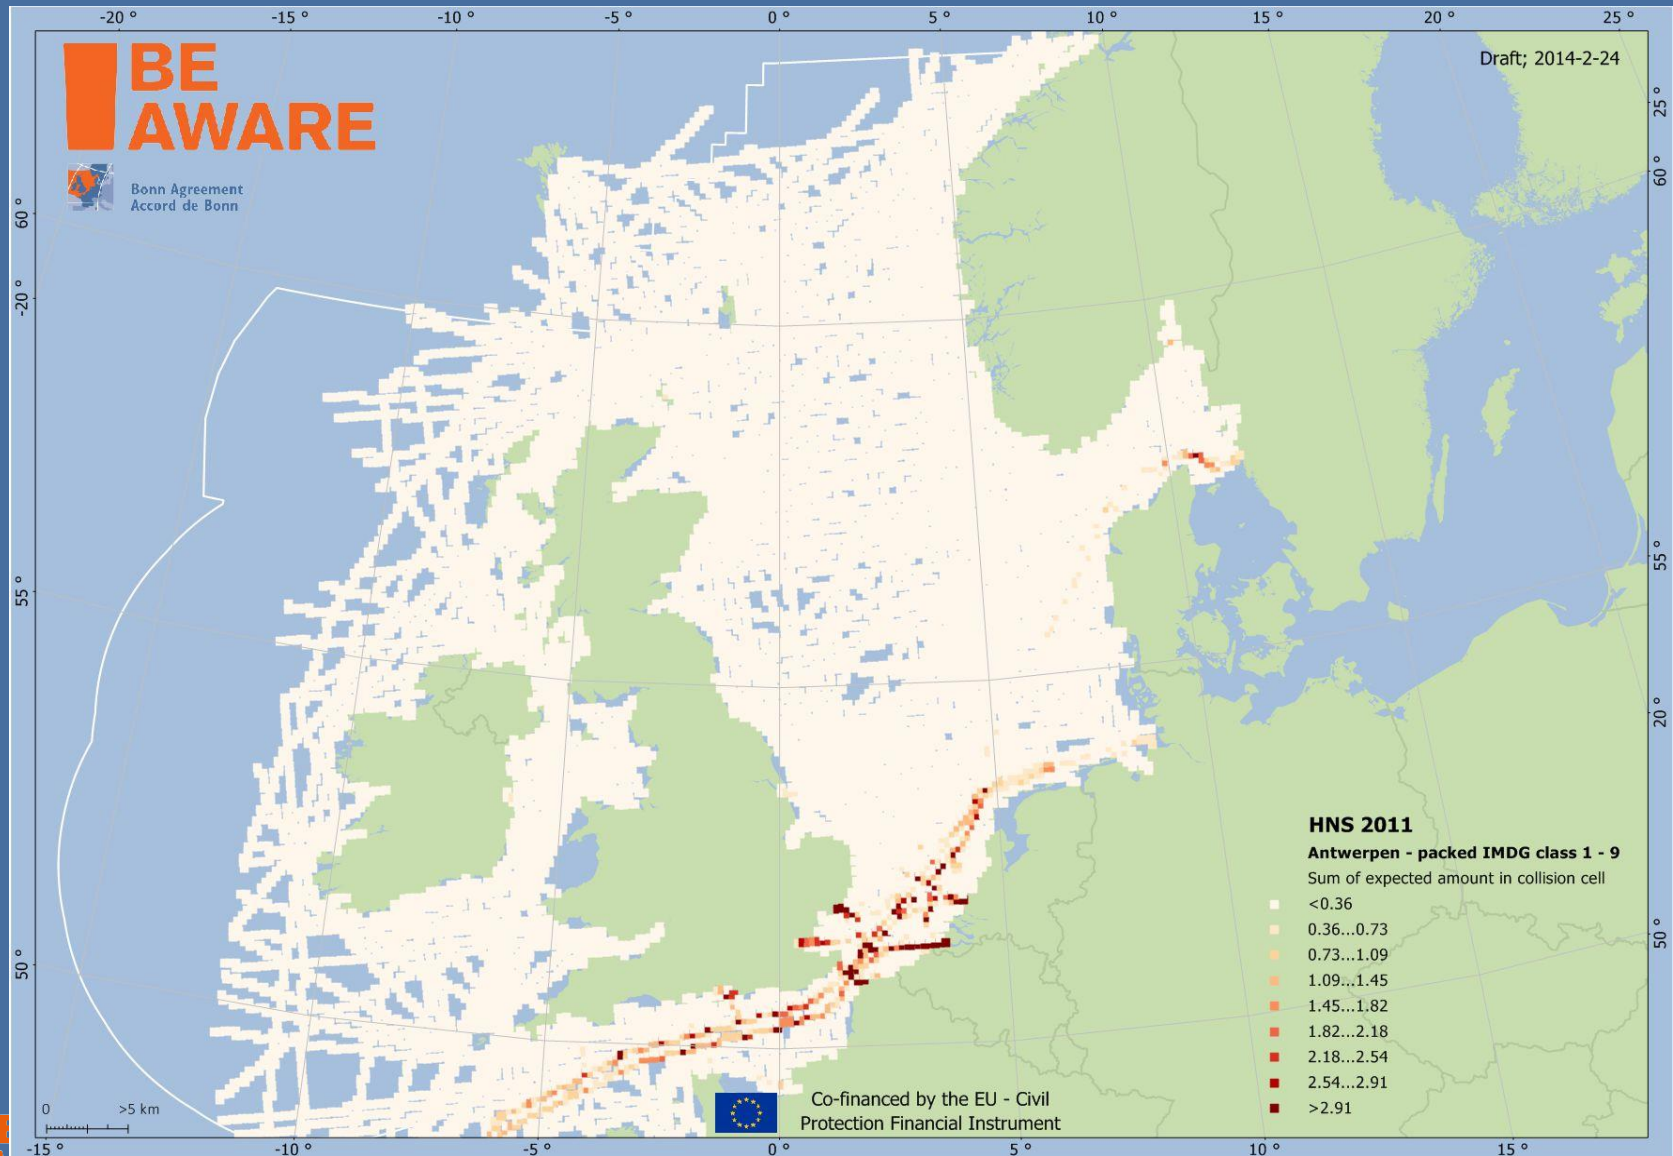

- Top 100 most transported goods (bulk and packed)
- Each dataset divided into IMDG, GESAMP and ACROPOL
- MARIN SAMSON accident database used to estimate accidents of HNS shipments or vessels per cell

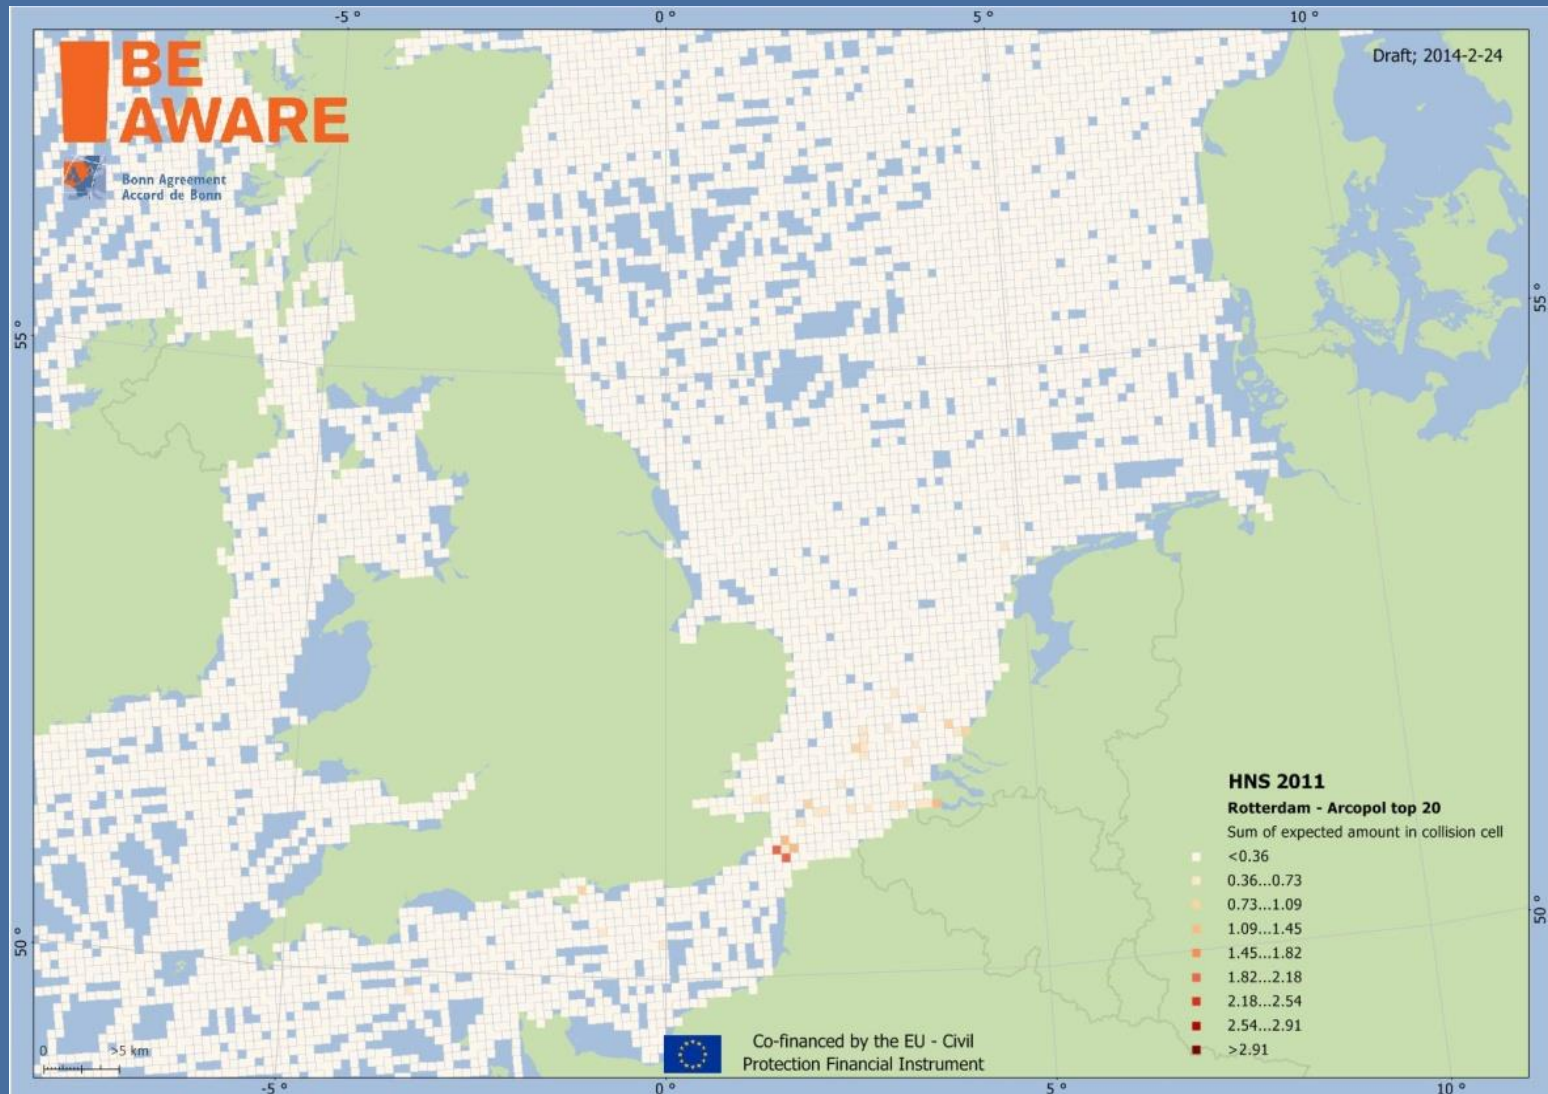

Geographical Distribution: Bulk IMDG 1-9

Packed goods IMDG 1-9 Antwerp

Packed Goods: ARCOPOL Top 20

How do we best manage the risk of spills?

Future scenarios

Reference Scenarios:

- Present Situation
- 2020 Situation

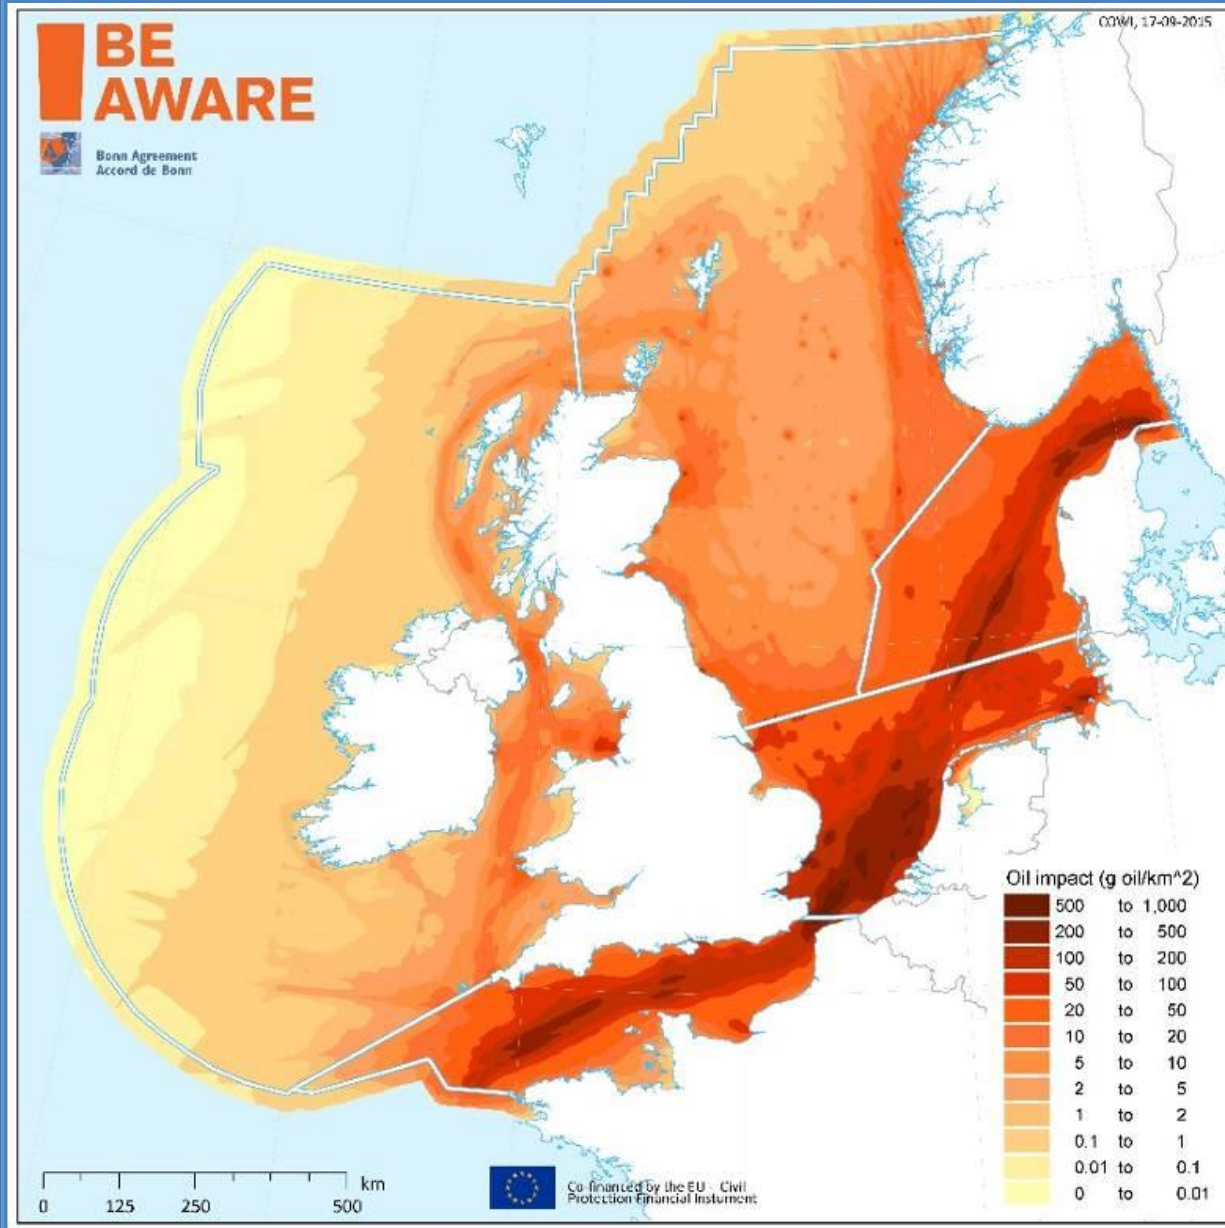

Response Scenarios:

- Improved night detection
- Dispersant use
- 50% more equipment

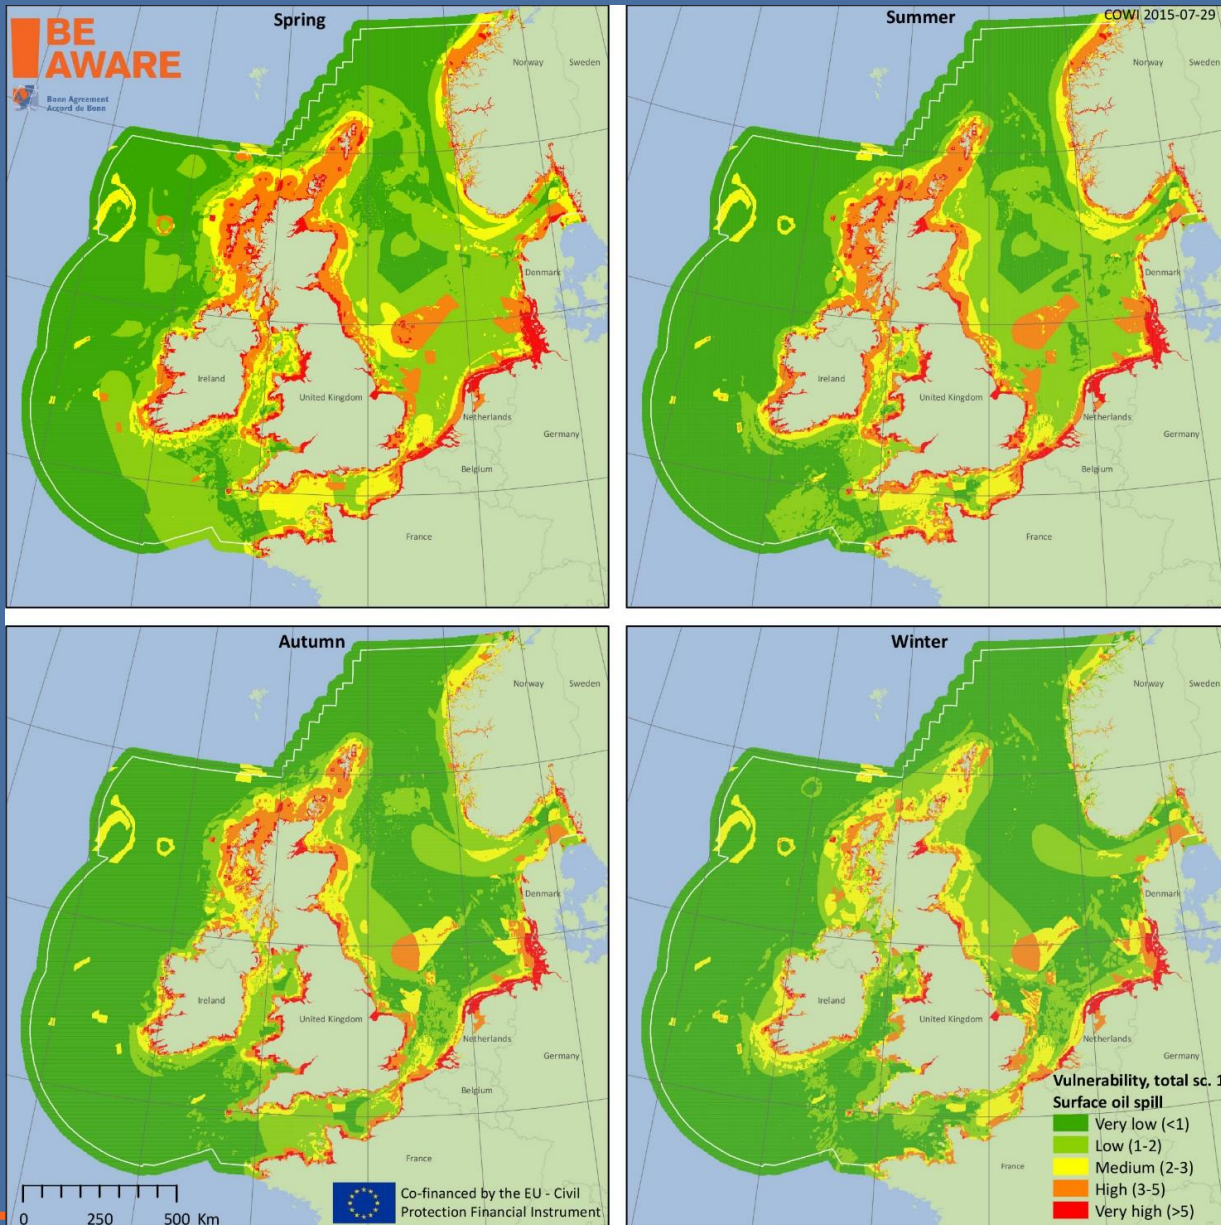

Risk Reducing Scenarios:

- Vessel Traffic Services
- Traffic Separation Schemes
- AIS alarms
- E-navigation
- New Emergency Towing Vessels

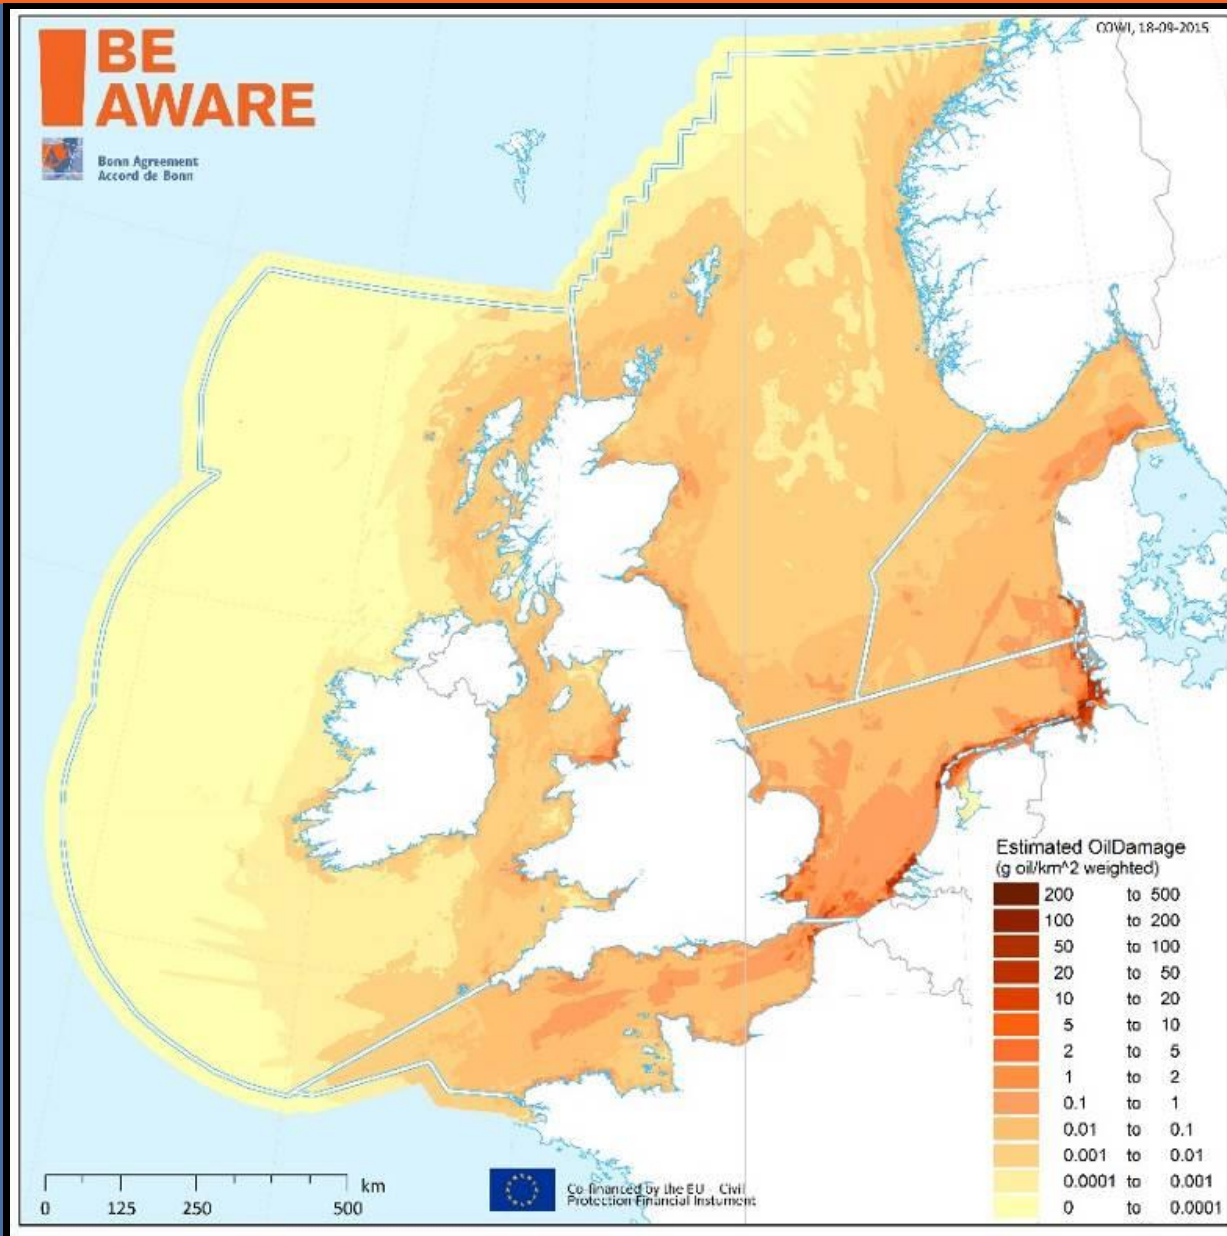

Oil Impact Base Case 2020: All spills

Combined vulnerability per season

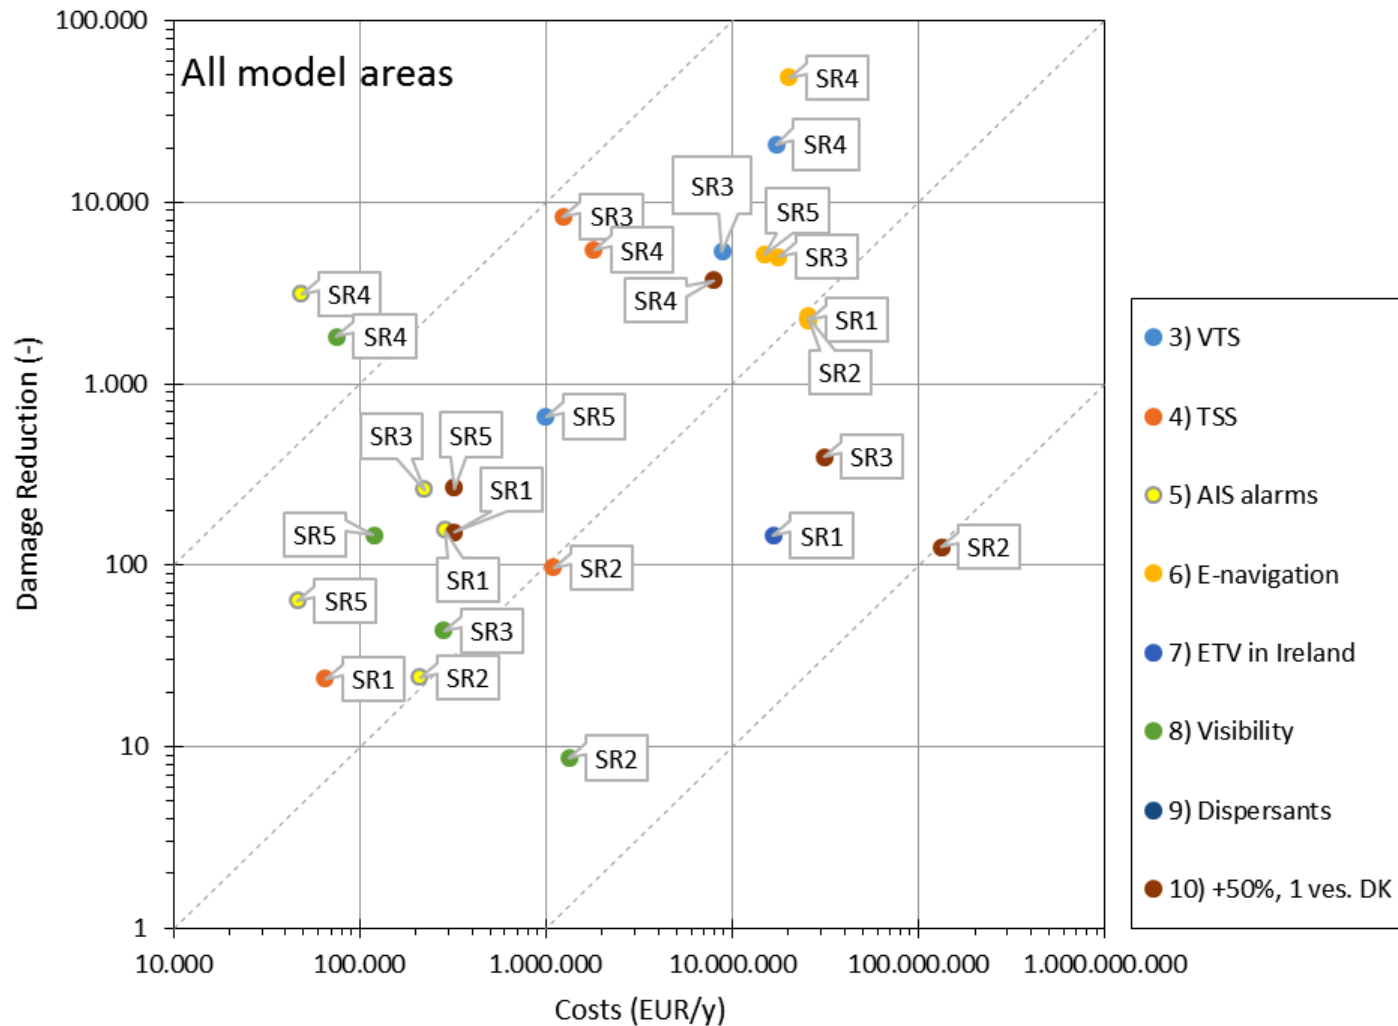

Oil Damage Base Case 2020

Oil Damage per region

Damage effect					
Scenario	Sub-region 1	Sub-region 2	Sub-region 3	Sub-region 4	Sub-region 5
VTs	-0.2%	-1.3%	-27%	-11%	-3.2%
TSS	-0.3%	-1.0%	-42%	-2.8%	-0.0%
AlS Alarm	-1.7%	-0.3%	-1.3%	-1.6%	-0.3%
E-navigation	-25%	-25%	-25%	-25%	-25%
ETV in Ireland	-1.6%	0.0%	0.0%	0.0%	-0.0%
Night vision	-1.3%	-0.1%	-0.2%	-0.9%	-0.7%
Dispersants	1.5%	3.1%	33%	15%	27%
+50% resp.	-1.7%	-1.3%	-2.0%	-1.9%	-1.3%

Effectiveness and Efficiency

BE-AWARE Implementation Plan

- Sub regional Implementation of priority Scenarios
- Reviewed at Ministerial meeting in 2019

	3) VTS	4) TSS	5) AIS alarms	6) AIS navigation	7) E-Additional ETV's	8) Enhanced night vision	9) Dispersants	10) +50%, 1 ves. DK
Sub-region 1		2	1					3
Sub-region 2		1	3			4	5	2
Sub-region 3	2	1	3					
Sub-region 4		1	2	4		3		
Sub-region 5	3		1	4		2		

Next Steps

- New Bonn Agreement Action Plan 2016-2019
- Area wide risk assessment of HNS
- How to build on HNS-MS results?
